* Each of these fields vary

* Pt/Dr./Med will need to Search system for existing Profiles

* Sig Code would Search for pre-determined Sig! → Long term Idea

* Other fields may just be input items

* Once Completed Label should Print! or go to queue to print

Add New Pt!

- * Would Like this page to just Search or Add new Patient
- * Would love the Search to search by DoB/Last Name/First/Address/
- * Would Love a Running List as you Search with existing profiles

Patient Profile (once selected)

Patient Name		Edit info
General information	Insurance info	
- Last Name	Bin	
- First Name	PcN	
- Date of Birth	person code	
- Address	ID#	
- primary Dr.	Group #	
- Allergies		
Save info	Home Scrn.	NEW Rx →

* would be cool if New Rx tab went to NEW Rx & auto populated pt info

* Edit tab should just open all field boxes to edit
